Summary

Dedicated JavaScript developer specializing in the MERN (MongoDB, Express.js, React.js, Node.js) stack. With a focus on both front-end and back-end development, I thrive on crafting seamless user experiences and robust, scalable APIs. My expertise lies in React.js for creating dynamic and interactive front-end interfaces, while my proficiency in Node.js and Express.js allows me to build efficient backend solutions and handle API calls with ease. I'm passionate about leveraging technology to solve real-world problems and am always eager to learn and explore new technologies and methodologies.
